Summary

App Developer with experience building cross-platform mobile applications and AI-powered solutions using Flutter, Firebase, Python, and Machine Learning. Skilled in developing scalable mobile apps, integrating intelligent features, and deploying real-world applications. Passionate about mobile technologies and AI-driven user experiences.

Education

Asha M. Tarsadia Institute of Computer Science and Technology

Aug'23 - Present

Bachelor of Technology in Information Technology | CGPA: 9.0/10

Bardoli, Gujarat

Shree C.C. Shah Sarvajanik School of Higher Secondary

2023

GSHSEB SSC + HSC

Surat, Gujarat

Experience

Webito Infotech | Flutter Developer Intern

Jan'26 – Mar'26

- Engineered 2+ Flutter apps with AI chatbot integration using Dialogflow, enabling intent-based automation across mobile and web platforms.
- Automated 3+ recurring workflows and architected scalable app structure, reducing manual operations and improving maintainability.

Generation Next | Flutter Developer Intern

Jul'25 – Jan'26

- Developed and maintained 4+ client-based Flutter applications with clean architecture and smooth UI performance.
- Shipped a CA management app with authentication and a multi-section dashboard, deployed to Google Play Store.
- Optimized UI rendering and improved cross-device responsiveness, enhancing overall user experience across Android devices.

Krtya Technology | React Developer Intern

Apr'25 – Jul'25

- Engineered 5+ responsive ReactJS web applications with mobile-first design, improving cross-device compatibility.
- Built reusable UI components and contributed to a shared component library, reducing future development time by ~20%.

Projects

CA Diary | Flutter, Dart, SQLite

- Built a task, client, and daily entry management app for CAs; live on Google Play Store with active maintenance.

WorkSphere | Flutter, React, FastAPI, PostgreSQL, JWT

- Designed and shipped a full-stack workforce management platform covering attendance, leave, payroll, performance tracking, and role-based access control across web and mobile.

Feedback Form | Flutter, FastAPI, Scikit-learn, Firebase

- Built a feedback system with ML-based auto-classification of responses; added Firebase file storage and automated email notifications on submission.

iChat – Real-Time Chat | Node.js, Socket.IO, JavaScript

- Created a real-time messaging app with live user presence tracking using Socket.IO and event-driven architecture.

House Price Prediction Model | Python, Pandas, Scikit-learn

- Trained a regression model to estimate real estate prices using feature engineering and cleaned housing datasets.

Customer Segmentation | Python, Scikit-learn, Seaborn, Matplotlib

- Segmented retail customers using K-Means clustering and visualized purchase behavior patterns to surface actionable insights.

Flutter Bot | Flutter, Dart, Dialogflow

- Developed an intent-based AI chatbot with Dialogflow; runs on both mobile and web with no platform-specific code.

Technical Skills

Programming: Dart, Python, JavaScript, C

App Development: Flutter, Android & iOS App Development, REST API Integration, State Management(Provider, Riverpod)

Backend: FastAPI, Node.js, PHP

Database: SQLite (Sqflite), PostgreSQL, MySQL, Firebase

ML & AI: Scikit-learn, Pandas, Machine Learning, Dialogflow, AI Chatbot Integration

Tools: Git, GitHub, JWT, Socket.IO

Concepts: OOP, DBMS, OS, CN, DSA

Achievements

- Completed 6-month offline internship across 2 companies, shipping Flutter apps for live clients.
- Deployed CA Diary to Google Play Store with ongoing maintenance and user support.

Certificates

NPTEL – Data Structures (4 Credit Course)

Score: 65% | May'25
